

## **Safety Guidelines (Important—Please read carefully.)**

We are excited to continue dance classes this Fall, and we hope that you are too! Please carefully read the list below to see the precautions we will be taking in effort to prevent the spread of COVID-19.

Sanitizing: We sanitize the floor, barres, bathroom, and any shared props daily.

Group Sizes: Class size limits subject to change based on SD City Guidelines for Youth Activities/Sports.

Open Observation: We are excited to bring back Open Observation! Please feel free to stay and watch during your child's class (performance groups exempt). **Masks are REQUIRED for all who are observing indoors over the age of 2, regardless of vaccination status.**

Hand sanitizer: We have hand sanitizer in convenient places throughout the studio for use.

Masks: Masks are required for all dancers, to keep everyone as safe as possible. All CDT teachers will be wearing masks during class time. All adults must wear masks if observing inside, regardless of vaccination status. Mask "breaks" will be given to students when needed along as long as social distancing is observed. Students in "Dance and Play" classes ONLY will be exempt from the mask rule (ages 18 months - 3 yrs), as well as those in adult classes with proof of vaccination.

Social Distancing: We will no longer be actively social distancing with marked spots on the dance floor, however, we will be encouraging dancers to be mindful of space and not touching one another.

Air Circulation: We will be keeping the studio doors open at all times and have all fans running constantly.

Water: Please have your student bring a labeled water bottle for class. We will no longer be providing water cups.

Understand that by sending your child to any class at CDT may mean they may come into close proximity to someone who has been exposed to Covid-19, just as in any other public setting. We cannot assume responsibility for this. Should someone at CDT be diagnosed with Covid-19, we will have a procedure in place to contact all families and decontaminate the studio.

Should your child become ill or develop symptoms during class time, we will contact the parent for immediate pickup and all other families will be notified.

Please do not bring your student to class if they have a runny nose, cough, fever, headache, or any other COVID symptoms. If your student's temperature is 100 degrees Fahrenheit or above, we ask that they not return for 72 hours with no fever (without medication). If your child has been sick or symptomatic within the last 24 hours, do not bring them to class unless they have tested negative for COVID.

\*Please note that these guidelines are based on CDC guidelines and are subject to change. Thank you for your understanding and patience as we work through this time together.
