
Fall 2020 Safety Guidelines

(Important—Please read carefully.)

We are excited to be starting dance classes again, we hope that you are too! Please *carefully* read the list below to see the precautions we will be taking in effort to prevent the spread of COVID-19.

Sanitizing: We are staggering class start times to allow a 15-minute space for sanitizing of touched surfaces (barres, floor, doors, chairs, bathroom) between classes.

Smaller Group Sizes: In accordance with SD County guidelines, we are limiting class sizes to 8 students max (10 people total) to allow for social distancing.

Closed Observation: According to CDC guidelines and in order to limit the amount of people in the studio, we will be closing our studio to open observation for the time being. There will be no parents or guardians allowed in the studio during class time. Parents, please bring your student to the entrance door on the right side when dropping off. You must be wearing a mask at drop-off.

Check-In: The Assistant Teacher will greet each dancer at the entrance door, take attendance, provide hand sanitizer (students may also bring own hand sanitizer or wash hands in bathroom), and quickly check temperature with a no-touch scanner thermometer. If the student's temperature is 100 degrees Fahrenheit or above, they will be asked to not return for 72 hours of no fever without medication. If your child has been sick or symptomatic within the last 24 hours, do not bring them to class.

Masks: **Masks are required for all dancers**, to keep everyone as safe as possible. All CDT teachers will be wearing masks during class time. All adults must wear masks during drop-off. Mask "breaks" will be given to students when needed along as social distancing is observed.

Social Distancing: We will be doing our best to keep dancers separate by marking spots on the You Can Fly wall and floor, avoiding prop sharing, not touching hands, and marking out 6 feet of space on the Ballet barres. Keep in mind that this will be a bigger challenge with the younger students, who often do not understand how to socially distance.

Air Circulation: We will be keeping the studio doors open at all times and have all fans running constantly.

Water: Please have your student bring a labeled water bottle for class. We will no longer be providing water cups.

Understand that by sending your child to any camp or class at CDT may mean they may come into close proximity to someone who has previously been exposed to Covid-19, just as in any other public setting. We cannot assume responsibility for this. Should someone at CDT be diagnosed with Covid-19, we will have a procedure in place to contact all families and decontaminate the studio. Should your child become ill or develop symptoms during class time, we will contact the parent for immediate pickup and all other families will be notified.

*Please note that these guidelines are based on current CDC guidelines and are subject to change. Thank you for your understanding and patience as we work through this time together.
